

# Gallery Canvas

## Matte Stretch Canvas

With Clear Protective Finish

### Description:

Gallery Canvas is an acid-free, matte finish, artist stretch canvas designed for long-term, fade resistant fine art or photo reproductions. The polyester/cotton blend canvas is water and UV resistant. We apply a clear matte water-based liquid lamination coating that protects the artwork from abrasion, staining and yellowing. This is a high quality canvas that has a thickness of 15 mils. We allow a 2" image bleed all around the print, for stretching and wrapping around ¾" to 1-1/2" wood canvas frames. (We do not provide framing at this time, only printing)

### Applications:

- ✓ Baby photos
- ✓ Wedding photos
- ✓ Family photos
- ✓ Vacation photos
- ✓ Graduation photos
- ✓ Wall Art for hotel lobbies, restaurants and retail

### Customization:

- ✓ Upload your own photos for custom printing
- ✓ Select an image from our galleries and have printed to any size
- ✓ Scale, crop or modify images to suit your needs

### Physical Properties

|                              |   |
|------------------------------|---|
| Caliper                      | 15 +/- 3 mil (375 microns)                            |
| Basis Weight                 | 300 +/- 45 g/m <sup>2</sup> (8.8 oz/yd <sup>2</sup> ) |
| Whiteness                    | 81  |
| Gloss (60°)                  | 3.9   |
| Optimum Printing Environment | 70°F (30-70% RH)                                      |
| Flame Spread Classification  | Class B, based on ASTM E84 test method                |
